Dear Families and Students,

Hello, I am very excited to have your child in my classroom in the upcoming school year. We're in for an exciting ride, but we will need to be equipped with a few supplies. You will find the supply list on the following page. It is a good idea to label you child's supplies. If you cannot provide these supplies for your child, please contact me and we will solve this problem together.

You are also invited to phone me or visit the school any time throughout the year if you have a question concerning your child's progress. The agenda is also a great tool for communication. The schools phone number is (204) 855 – 2242. My email is jmaksuta@flbsd.ca. Please do not hesitate to contact me if you have any questions.

On an additional note, in the following school year OLCS will be continuing the Bring Your Own Device (BYOD) format. This means students will be permitted to bring an electronic device to the school, such as a laptop or tablet, which will be used for competing assignments through research and other electronic medium. It is important to point out that students are not required to bring a device as the school can supply them for the day as they are needed. In addition to this, each student is responsible for their own device. This means they must follow both the classroom and school guidelines and must look after their own device. Please contact the school if you have any other questions regarding this program.

I hope you have a thrilling summer and I can't wait to get the school year started with this great group of students. See you in September!!!

Sincerely,

Mr. Jason Maksuta
